SHIPPING REPORTS

Men of Many Nations Shipped At Honolulu.

The annual report of United States Shipping Commissioner B. Griggs Holt of this city covering the fiscal year ending June 30, 1904, has been completed. It is a detailed account of the transactions of the commissioner during the past year and is a mine of interesting information. The report shows that the business of the port is in a healthy condition, the number of men handled showing a substantial increase over the preceding year. The largest number of the men were shipped in sailing vessel but as the crews of such craft are necessarily larger than those of steamers and as most of the steamers calling at this port are through boats this does not signify that the latter class of vessels does little trade here.

Perhaps no other port in the world can show such a cosmopolitan array of seamen as Honolulu. The tribes scattered at the dispersion of Babel seem to have gathered again at the "Crossroads of the Pacific" which might as aptly be called "The Crossroads of the World." From frigid Iceland to sunny Italy, from the Philippines to Austria they come. Some were even born at sea. Native Americans however are far in the lead with the Japanese, British, Naturalized Americans and Germans following in the order named. It seems surprising in a port where there are so many Chinese that only one Chinese sailor was shipped but the workings of the immigration law keep the Chinese out of the trade.

Another noticeable feature of the report is found in the table of assignments of wages. At many ports a large portion of the wages of deceased seamen is allotted to their relatives but at this port the creditors got all the money except in one case, while during the preceding fiscal year in not one case was the money paid to relatives. A condensed summary of the report follows which without going into the minor details will suffice to give an idea of the scope of the Shipping Commissioner's work.

ITEMS IN THE ALAMEDA'S CARGO

Two hundred and eighty-six cases, weighing one hundred and fifty tons, of Oriental goods will go out on the steamer Alameda this morning. This shipment represents the stock of the Oriental Bazaar of this city. A big shipment of fruit will be taken by the Alameda, 400 pineapples and a large quantity of bananas. Four, hundred and two bags of sugar, seventy of coffee and sixty bales of wool are the main items in the balance of her cargo. The steamer takes out a good sized passenger list and a big lot of mail.

The Biggest Yet.

The glory of the Baltic, the biggest ship in the world, is to be short-lived. The White Star line, which owns the Baltic, has awarded a contract to Harland & Wolf of Belfast, Ireland, builders of all the company's boats, to construct a new ship that will exceed the Baltic by 4,000 tons. The Baltic measures 725 feet 9 inches in length, but the new colossus is to be 755 feet long. It was stated today by one of the officers of the Baltic, who spent a good deal of time at Queens Island, where the Baltic was built, that the keel of the new leviathan has already been laid. The selection of a name for the new boat has not yet been made, but it will be either Adriatic or Asiatic. The first named has the preference, the line once owning a craft of that name.

Rails For Hilo.

Eight hundred tons of steel rails, a part of the Tillie E. Starbuck's cargo, are consigned to the Kohala-Hilo railroad. President Peck of the railroad is working hard for its construction although no contracts have been awarded yet. Surveys have been made anew and it is expected that construction work will begin soon.

St. Hubert Not Taken.

A dispatch received yesterday from Yokohama announces the safe arrival at that port of the British steamer St. Hubert which sailed from this harbor July 2. While here her crew claimed that her cargo of nitrates was contraband of war and there was some trouble before they could be persuaded to continue the voyage.

Shipping Notes.

The Gerard C. Tobey is taking on sugar at the coal wharf.

The steamer Maui is discharging part of her sugar at the railway coal wharf.

The Coronado is at the railway wharf, No. 2, having some repairs made to her rigging.

Rapid progress is being made on the seawall at the foot of Fort street. The cement work will be begun shortly.

A dispatch from Kahului states that the steamer American has left that port for Hilo where she will take on about 2000 tons more sugar.

The transport Sherman carried 1000 pounds of wattle bark from this port to the Department of Agriculture. It will be distributed for use in tanning.

HOW TO GAIN FLESH

The life of food is the fat within it—the more fat the more real benefit from the food; that is why cod liver oil is a powerful builder of flesh.

Scott's Emulsion of pure cod liver oil solves the problem of how to take cod liver oil. That is one reason why doctors have been prescribing Scott's Emulsion for all wasting diseases, coughs, colds and bronchitis for almost thirty years.

One of the inducements offered in order to substitute something else for Scott's Emulsion is the matter of cost. You save a few cents at the expense of your health. Scott's Emulsion costs more because it does more and does it better than the substitutes.

Rescued from Suffering and Death by

PAINE'S

Celery Compound

THE GREAT MEDICINE.

MR. ALFRED BROWN,

A Prominent and Popular Citizen, Says:

"After the Use of Paine's Celery Compound,

I Am Now in the Best of Health."

The greatest of modern physicians, Prof. Edward E. Phelps, M. D., LL. D., after years of long practice and close scientific study, gave to suffering and diseased men and women his marvelous, life giving prescription, with the conviction and positive knowledge that it had peculiar virtues and ample powers to cure.

Thousands of the strongest testimonials from the best known and most reliable men and women of our country fully sustain the claims made by Dr. Phelps regarding his incomparable Paine's Celery Compound.

One of the most convincing proofs furnished, comes recently from a gentleman widely known in the capital city of the Dominion of Canada. We refer to Mr. Alfred Brown, of O'Connor St., Ottawa, Ont. Mr. Brown's letter fully demonstrates the fact that the greatest sufferer may cast off his or her burden of disease and become well, strong, and happy.

It proves, too, that the great medicine maintains more fully than ever before its unrivaled place in the estimation of people of wealth and social standing as well as with the masses.

Mr. Brown says:—

"I acknowledge with thankfulness and pleasure the fact that I have been cured of a very painful illness of eight years' standing by use of Paine's Celery Compound. I had, during the years of my illness, tried almost all the advertised medicines without deriving any good results. I was also treated by several of the best doctors of this city, hoping to find that one of them, at least, would understand my case.

"I was getting worse, and was told I was incurable. I was indeed in a critical condition. I could not go from the house alone, as I was liable to sudden collapse. I tried hospital treatment, but no relief or good results came to me. I could not sleep; anything that I ate increased my agonies; I was extremely weak, restless, tired, and despondent; was obliged to walk about with my hands pressed firmly into my left side to ease my pains; my feet and hands were cold continually; had inclination to vomit, had profuse, cold sweats, quick breathing, and would be racked with pain for hours at a time.

"After the regular use of Paine's Celery Compound for a time, I am now in the best of health, have good appetite, and can use any kind of food. Thank God I am my old self once more, all through the use of Paine's Celery Compound."
